

## AIAA SATC Vice Chair Election (2022-2024) Election Statement

### **JACKELYNNE SILVA-MARTINEZ**

Dear SATC family,

I am grateful for the opportunity to have been a member of the AIAA SATC for the past 14 years. I have grown both personally and professionally with such great role models who started this TC. We have planned symposiums, organized panels, reviewed papers, and co-chaired SA conference sessions, and lately taught SA courses! We are a multi-disciplinary team, and that's what makes us strong. Through our efforts both at the local and international levels, we have gained visibility for our space architecture field, and I would love to help our TC to keep the momentum going. We will continue our participation in the prime organizations where we have technical sessions, such as IAC, ICES, AIAA, while also looking into partnerships/collaborations with other TCs, and organizations that have similar interests/goals. I propose we develop a strategic plan for the next 5-10 years to ensure sustainability of our efforts, and make sure that the space industry fully recognizes that our field is not only relevant but required for mission success. Looking forward to continue walking in this journey with all of you!

Ad astra,

Jackelynnne Silva-Martinez
